RUSSIAN LOSSES AT LIAO YANG.

St. Petersburg, Sept. 23rd.—The general staff has issued a revised list of the Russian casualties at Liao Yang showing that 1810 men were killed; that 10,811 were wounded and that 1212 were left on the field. Fifty four regimental officers were killed and 252 were wounded; two generals were killed and three were wounded; five officers were left on the field.

CHINESE ASSISTING THE JAPS.

Mukden, Sept. 23rd.—The situation here continues quiet. Small parties of Japanese skirmishers are pushing northward on the rear from Bentziapaze to Fushan. It is stated by Russian Spies that Marquis Oyama has detached a considerable force to co-operate with the army before Port Arthur. The Russians have taken many Chinese prisoners among them being found a number of Chinese regular soldiers.

St. Petersburg, Sept. 23rd.—A detachment under Gen. Rennenkampf while reconnoitering Wednesday, lost 2 officers and 9 men killed and 3 officers and 23 men wounded.

Tokio, Sept. 23rd.—An official telegram reports that fighting has taken place at the towns of Tieling and Santungkuf, 60 miles northeast of Liao Yang, September 20th.

ATTACK ON PORT ARTHUR.

St. Petersburg, Sept. 24th.—A fierce attack is now being made on Port Arthur by the Japanese who are determined to take the fortress at once. Shot and shell are being poured into the doomed city and it is now almost untenable. The Czar has received telegrams from Port Arthur which he has kept a secret. The greatest anxiety prevails in St. Petersburg over the fate of Port Arthur.

SOME DETAILS

OF W. P. TAYLOR'S DEATH

One of the Party who Found Him
Dead on the Trail is in the City.

Geo. Wace, a member of the Grand Trunk Pacific survey party operating west of Lac Ste. Anne is in the city to-day. He was one of the party that found the late W. P. Taylor dead on the trail twenty miles west of Lac Ste. Anne. The party of packers had left Lac Ste. Anne on Monday September 12th for the Grand Trunk Pacific camp with a supply of pro-

victuals. Mr. Taylor left two days later, Wednesday, 14th. The packers had left the supplies at the camp and accompanied by Mr. Wace have returned as far as twenty miles west of Lac Ste. Anne where the body was found.

When found the only clothes on the body was a shirt, the clothes being found in a heap a few yards distant. Mr. Taylor's rifle was found on the trail about two miles from where the body was found. He had got off his horse before lying down, as his footsteps could be traced for some distance. There were no marks of rough usage of any description on the body.

Mr. Taylor was acting as head packer for J. Callaghan's Grand Trunk Pacific survey party.

THE LAST OF THE SHOOT

The Edmonton and Strathcona Fall Rifle Matches Concluded on the Strathcona Range Thursday. The Winner of the Grand Aggregate Silver Cup.

The series of matches of the combined Edmonton and Strathcona Associations came to a very successful conclusion on the Strathcona range yesterday with the long range matches, the score made in which, together with those made in the Association and All Comers matches make the Grand Aggregate scores, thus practically making one match in three stages, the winner of which is, of course, the champion of the meet.

Unfortunately the fine weather enjoyed during the two first days of the meet was missing, the air being raw and chilly with a fresh northerly wind blowing so that a campfire was necessary for the comfort of the riders, and this, made in the protection of a bluff, was thoroughly enjoyed by all. There being only a single pair of targets for these ranges it took all day to complete the match.

As the wind was veering about considerably and varying in strength as well, it made good scoring exceedingly difficult, in fact impossible, so that the scores made, although low, represent very careful work.

The Strathcona Association is to be congratulated upon having a fairly complete range, and the captain and his zealous assistants deserve credit for the hard work they have put in preparing for these long range matches. It seems however that a road is to be opened through this range shortly, thus closing it for this purpose. The range officer, Mr. Jno. W. Forbes and his able assistants, the markers and scorer, also deserve credit for the smoothness with which all the events of the meet have passed off, there having been no hitch of any kind to mar the pleasure of the three days' contest.

The following is the result of the shooting on the long distance range:

NAME	Ass'n	800 yds.	900 yds.	1000 yds.	Total
R. A. Hulbert,	S	24	13	21	58
W. Pearce,	E	20	25	13	58
P. McNaughton,	E	24	13	18	55
W. H. McMahon,	S	15	17	19	51
J. Carmichael,	S	7	23	17	47
E. A. Knapp,	S	18	16	13	47
H. B. Spratt,	E	23	20	4	47
G. A. Reid,	E	17	13	15	45
D. G. Bisett,	S	20	14	11	45
W. Groat,	S	25	14	6	45
W. H. Bedard,	S	13	18	13	44

T. H. Whitelaw,	E	19	10	4	33
J. McDonald,	E	6	17	9	32
W. L. Gibbard,	E	0	10	16	26

As the conditions were unfavorable and many of the contestants had never previously shot at a greater range than 600 yards the above scores are considered excellent.

The winners of the Grand Aggregate were:

A suggestion that a smoker be held at which the prizes won in these matches will be distributed, meets with general favor and the idea will likely be carried out at as early a date as possible, of which, however, due notice will be given.

PEMBINA COUNTRY

PRAISED BY A SETTLER

Splendid description of the immensely rich Pembina River district

The following communication addressed to the Bulletin has been received:—

Speaking of the country north of the Pembina river you say in your issue of Sept. 21st, "Of course the settlers base their confidence in the locality on the assurance that it will be reached by the Grand Trunk Pacific at an early date. It is of far out to attract settlement unless there was some such prospect." There is a broad implication in this statement, which I think you did not intend to imply, viz., that without the prospect of the railway at an early date the locality would not be desirable for settlement. The distance from Edmonton north-westerly in a direct line to the crossing of the Pembina by the Peace river trail is 50 miles, and to state that the locality would not attract settlers without the immediate prospects of a railroad is to place it in violent contrast with a hundred other localities at a greater distance from railroad facilities already settled or settling up rapidly in spite of a most uncertain future as to transportation. There exists a universal and well founded belief that no part of the Canadian West will long be without railways. The example of the United States is close at hand, and the people are convinced that railways cannot much longer be kept out of this land of wonderful resources.

Aside from the fact that it is situated upon the direct and from natural conditions the inevitable railway route to the Peace river country the Pembina district, comprising as at present understood, the territory west of the fifth meridian and north of range fifty-six, offers the bona-fide settler, particularly the man with a family attractions and advantages not compassed in any other district of the North-West territories. For the man or woman whose heart is open to nature's miles the scenery bordering the Pembina river is a grand surprise after the journey of thousand miles through a land of wearisome monotony.

Leaving Edmonton for the Pembina we pass the thriving towns of St. Albert and Riviere Qui Barre, surrounded by the richest farming lands of the continent and thence by the Peace river wagon road across the beautiful Alexander Indian Reservation into a land of hill and dale, of rushing streams, forest glades, and broad meadows, where luxuriant grasses wave, and beyond, far to the north, and we rise the shadowy blue summits of the great backbone which divides the McKenzie basin from the Hudson's Bay watershed.

Soon after passing Deadman's Lake a name that would put an African hoodoo in Paradise itself, the settlement begins, on land bearing a somewhat dense growth of poplar and willow with a deep rich black soil. As we proceed the country opens out until there are long slopes reaching to the very hill tops, where the mower cuts, and the native grass is a revelation to a man from the lowlands. Now we traverse a rolling country, sparsely wooded, and as we surmount each elevation we see increasing evidence of the thrifty settler's presence. On either hand are snug houses and barns fenced and cultivated fields. The tinkling cowbell gives us the sense of home. There is abundant proof that here nature yields her bounty readily to him who seeks in good faith. Finally Lake La Nonne spreads before us, absolutely peerless in this great North-West, with her fathomless cool waters, her varied outline of beach and cove, and towering verdure clad hillsweeping skyward from the shore without bottom, and here the superb

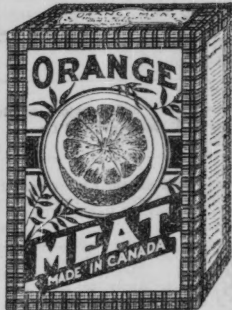

white fish, no plus ultra, of the finny tribe, in Northern latitudes, finds his home in vast numbers. Five miles long and from one to two miles wide, this lake of pure water and attractive surroundings will sometime be a summer resort of Edmonton's elite the mecca with the man with the rod and gun. Right here we are at the foot of the range of hills that has slowly risen upon our vision during the last fifteen miles. Several hundred feet above our present level it rises like a surging sea northeast to southwest, with many a gentle slope and sheltered valley, and here and there a plateau far up, fit for the estate of a lord. By an easy ascent we reach the top. Magnificent! The heart swells, the eye dilates, a sense of boundless freedom thrills us as our glances sweep the horizon twenty miles away. Everywhere the billowy and changing landscape, threaded by the glimmer of streams and sparkling with the sheen of half hidden lakes. At our feet St. Nonne a rippling sheet of silver. To the northwest the winding Pembina, coursing between its forest clad banks where spruce and poplar vie in strife to reach heavenward. "Behold!" said one, "here again are the hills of dear old Scotland. Here abide. And so he did, with his family of ten persons to whom he telegraphed across the sea, "Come." And as time goes on many will envy them in their eagle's eyrie of six hundred and forty acres not only for its beauty of situation but because upon these hills to the topmost point is a growth of grass and peavine unequalled in luxuriance, and quality anywhere off this Pembina range, a sure indication of the strength and adaptability of the soil. Down the northern slope we wend our way between roadside borders of birch and willow, rose and berry bush, and wild peas in gorgeous blooms till we reach the rich bottom land where the spruce grows three feet thick, and the poplar a hundred feet tall. Here on the river bank is the traveller's joy, a cozy, well kept inn, and the frontiersman a rendezvous, a well furnished store. This is McDonald's crossing. Many a wayfarer from copper hued Indian to fair haired Briton, bears in his heart a kindly recollection of the charming landlady who supplied his needs so bountifully, and lighted in his breast the home fire on the far away Pembina.

It is my opinion that there are many good unoccupied quarter sections in townships 56, 1 and 2, west of Deadman's Lake, and likewise in 57, 1, these lands having been passed by

because somewhat inaccessible directly from the main trail. Again, the hill country as seen from the road appears barren, but close inspection shows that it is almost invariably covered by dense vegetation. The newcomer not educated to the new conditions is usually incapable of judging for himself. I made three trips to the Pembina before I was satisfied that the country was all right. And now I am convinced that there is nothing better for me. Many land seekers have gone to the Pembina at the time of the year when roads everywhere were nearly impassable. On arrival they saw everything darkly, and thought only of how they might get back to Edmonton alive. But we shall soon have a new and better road. We have one post office, St. Nonne, and are to have another at McDonald's.

Much of the soil near the Pembina is underlain with marl, the value of which for grain crops especially is well known. The subsoil is a brown or chocolate clay. Immediately beyond the river are heavy forests of poplar, interspersed with open stretches of bush land. The soil is black and deep. I have seen there hewn poplar trees eighty feet long. Tamarac is plentiful near the Pembina and

Washing Proves

There's only one real test of unshrinkable underwear—the wash tub. Two or three hard rubbings will soon shorten the usual so-called "unshrinkable" underwear. That's why the directions for washing are so elaborate—why there are so many "do's" and "don'ts."

Stanfield's Unshrinkable Underwear

is absolutely unshrinkable. The wash tub proves it. Your dealer guarantees this to you—and we back up that guarantee to him. We know it won't shrink because it can't shrink. Our special process takes out the shrink before the garments are cut. Even then, each one is tested by washing.

No Appetite?

Go to the root of the trouble and you'll find upset stomach or constipation. ABBEY'S SALT cures both. A glass before breakfast cleans the stomach—clears the liver—makes the bowels move easily, and naturally—gives you an appetite like "a working man."

ABBIE'S SALT is the safe appetizer because it contains no alcohol.

25c. and 60c. a bottle—at all druggists.

Abbey's Effervescent Salt

ONE of the advantages of the Cuban tobacco I procure, is that it is almost entirely cured by nature.

The climate is so hot that the tobacco sweats naturally—the leaf is ripened uniformly and the subsequent process of curing favorably promoted.

With the expert attention the leaf receives in Cuba it is pretty thoroughly cured and preserved—and its fragrant aroma developed by having been slowly fermented. I allow it to remain in my warehouse from 2 to 3 years, until it has sufficiently aged and has that mellowness that age alone can give. It takes a lot of study and experience to know when Havana tobacco is just right. Pharaoh tobacco is always just right.

A SPLENDID CROP

MINISTER OF THE INTERIOR

Cables to Lord Strathcona that Western Canada's Crop will Aggregate about 60 Million Bushels

Bulletin Special Dispatch.
Ottawa, Sept. 23.—Hon. Clifford Sifton, Minister of the Interior, today cabled Lord Strathcona, Canadian High Commissioner at London, respecting the crop conditions the following: "I am now able to state definitely that under conditions of unusual difficulty in the North-West a fair average crop of wheat of good quality has been reaped and is now secure from substantial damage. The reports of injury from frost and rust were grossly exaggerated. The wheat of Manitoba and the North-West Territories will aggregate from 55 to 60 million bushels. The quality is good and the price is ranging around one dollar per bushel."

A SHORT SESSION

HELD YESTERDAY AFTERNOON

Territorial Assembly Receive Petitions. Several Reports laid on the Table

Bulletin Special Dispatch.
Regina, N.W.T., Sept. 23.—The Legislature held a ten minute session this afternoon, devoted almost entirely to the receiving of petitions, praying for the incorporation of the Western Canada College, Calgary, Alberta College, Edmonton; and the English Club, Medicine Hat. Petitions from Medicine Hat and Moose Jaw for municipal purposes were presented by their respective members. R. B. Bennett, Calgary, gave notice of an amendment to be introduced on Thursday next. The reports of the Department of Agriculture, Education, Public Works of the Territorial Secretary, together with the Public Accounts, were laid on the table. Standing and select committees were appointed the same as last year.

BORING MACHINERY

HAS ARRIVED IN EDMONTON

For the North-West Gas and Oil Company. A Site for Boring now being selected.

A car load of machinery for the North-West Gas and Oil Company arrived in Edmonton last night. The shipment made good time as it left Pittsburg on September 2nd. The shipment included engine, boiler, drills, pumps, and everything except the casing, for a first class boring outfit. The casing will arrive in a few days.

The directors of the North-West Gas and Oil Company have been examining a number of sites in the district for the commencement of boring operations. A site will be chosen in a day or two and active operations will commence in the very near future.

PEMBINA COUNTRY

Continued from page 3

There are large areas of the finest spruce contiguous to the river. A sawmill would do well. A large creek which is the outlet of Lake La Nonne, enters the river through a gorge in the range near McDonald's crossing. This gorge was utilized by the Grand Trunk Pacific Railway Co. in its surveys, enabling it to reach the river without breaking the grade limit.

At the mouth of the river a natural dam extends nearly across the gorge. Forty feet of timber work would complete it and give a head of fifteen feet, easily increased. I am told that the creek never freezes over. There are valuable deposits of clay in this vicinity, including two rare varieties of potter's clay, one firing pure white, and the other specially adapted to jugs and similar hollow ware. There is much opportunity for general farming, but the country bordering upon the Pembina is pre-eminently suited to the raising of fine stock. For grazing it is unexcelled, while there is an abundance of hay for cutting. In no part of the North-West is it easier to make a home. Nature provides everything there for man's use, that she does anywhere else—timber, fire, fish, game and wild fruits.

Township 58, range 2 west of the 5th meridian offers many opportunities to those who prefer elevated, open rolling lands; 58, 3 is settled only in the southeast corner along the river, principally bottom land. Here are some valuable farms, and there is more of such land unoccupied both up and down the river. Nearly all of the homesteads in 57, 2 are taken. Of those still vacant a few will in time be well worth improving.

To anyone whose earnest purpose is to locate permanently upon a homestead I would suggest a thorough inspection of the Pembina country. There are many choice quarter sections yet to be had in the region already prospected, but they require diligent seeking. Desirable vacant homesteads are no longer visible from the highway, as they were six months ago. The route of the Pembina is now well travelled, and from Edmonton to McDonald's crossing there is no lack of entertainment for man and beast. Our settlers are British, Canadians and Americans. All are intelligent and fully capable for citizenship. I venture the assurance that newcomers, without distinction, will be heartily welcomed, without distinction as to race, creed or color.

CONCERT AT POPLAR LAKE.

A very successful concert was given in Poplar Lake school house last night. Notwithstanding the muddy roads and damp weather the building was crowded. A lengthy and highly acceptable programme was rendered. It included a song, Mr. Gillmore; speech, Rev. Mr. McQueen; song, Miss Asher; recitation, Mr. Wade; song, Mr. Stutchbury; duet, organ and clarinet, Messrs. Hutcheon and Storey; encore; refreshments; song, Mr. Henthorne; solo on mouth-organ, Mr. Carnegie; encore; duet, Miss Rye and Mr. Gallimore; short address by Rev. Mr. McQueen, on the purpose of the entertainment to raise funds for the improvement of the Poplar Lake cemetery. Songs, Mr. Stutchbury, encore; recitation, Mr. Wade; song, Mr. Belfrage, encore; Mr. McDairmaid expressed the thanks of the committee to all those who had assisted in the entertainment and announced that the proceeds at the door amounted to \$43.50; duet, by Messrs. Dutton and Storey, encore; God Save the King.

Grandma

Here sits dear old Grandma in silk and old lace. We boast that no wrinkles disfigure her face. She's healthy and bright and I've oft heard her say: 'Tis because she has used Abbey's Salt every day.

No matter how hearty the old folk appear, their digestive organs are on the wane. The stomach and bowels are noticeably weaker. The liver often sluggish. Nature needs assistance.

ABBEY'S SALT is the tonic laxative to keep the old folk in healthful vigor. It is so mild—yet so effective—that it puts the stomach, bowels and liver in perfect order without the least discomfort.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per section in which the land to be homesteaded is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned by the mayor prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3 or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers who have completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

You know the action of fruit.

Apples, on the kidneys—oranges, for stomach and appetite—prunes and figs for the bowels. But—fresh fruit won't CURE these organs when diseased: they can only HELP to keep them well.

Fruit-a-lives

or Fruit Liver Tablets

can—and DO—cure. They are fruit juices—but changed chemically and medicinally, by our secret process. So remarkable is this conversion, that "Fruit-a-lives" cure all Stomach, Liver, Kidney and Skin Diseases, where the fresh fruit would have no effect on the trouble.

—Train on time.

—In the Swartz-McCrimmon case judgment has been given in favor of Malcolm McCrimmon in both cases.

—The Bulletin has received a handsome calendar from Messrs. McLoughlin & Ellis, grain dealers, Winnipeg.

—The eighth annual convention of the Northern Alberta Teacher's Association will be held in Strathcona on October 13 and 14.

—Mrs. J. Mellon, wife of J. Mellon, of the Royal Hotel, Strathcona, died last evening. Besides Mr. Mellon there is left a family of four small children.

—Mayor Short and City Solicitor N. D. Beck, left for Regina this morning to look after Edmonton's interests during the passing of the bill making Edmonton a city, through the House.

—The Alumni Association of Toronto University, will hold a banquet on the evening of October 14th. About forty graduates are expected to be present. There are thirty graduates in Edmonton alone.

—Six members of the old Edmonton Rifle Association have challenged six of the "Moderns" for a rifle shoot at the Edmonton range next Saturday, the losers to donate two sacks of flour to the Edmonton Public Hospital.

—Travelers from Calgary last night state that the weather was bitterly cold in Southern Alberta, and that snow lay thick on the ground all day Friday from Calgary up to near Wetaskiwin, where it gradually disappeared. From Leduc north to Edmonton there was no snow.

—C. J. Broughton, Dominion Immigration Agent, with headquarters in Chicago, Ill., is expected in the city in a day or two. He has conducted a party to Western Canada, several of whom have visited this district in advance of Mr. Broughton. They are greatly pleased with Edmonton and district.

—McLeod Advance, Sept. 20th. —On Thursday last Walter Pearson, 15 years was accidentally shot while withdrawing a shot gun from a buggy last Thursday evening. He was about five miles west of Claresholm and in company with his father and brother when the accident happened. His parents reside in Claresholm.

—McLeod Advance.—Mr. P. Solberg threched last week and is well pleased with the results. From a field of 48 acres of winter wheat he had 2,300 bushels of A1 grain which totals an average of a little better than 44 1/2 lbs. per bushel. This is not the only crop that has been above expectations, for Mr. Solberg's spring wheat averaged 35 bushels to the acre.

—John Leindecker, of the Horse Hills district, in an effort to have an overhanging well bored down to a depth of two hundred feet, the machinery broke, and work has not yet been resumed. A considerable amount of gas has been issuing from the hole and it is thought that by continuing boring operations coal oil will be struck. Mr. Leindecker has 140 acres of splendid crop, all of which is in track.

—Butler Herald.—It is said that the Government engineer who has been examining the crossings of the Saskatchewan river near this place has found that a good crossing can be made at a point to the east of the town. This is good news as it will prove to the Railway Commission that Battleford's contention that it was not on account of engineering difficulties that the C.N.R. were compelled to locate a new townsite within two miles of here, to the great injury of this place.

—Medicine Hat Times.—Mr. Thomas McKay has demonstrated the possibility of fruit growing at Medicine Hat. Three years ago he planted eight apple trees purchased from an eastern nursery and this year two of them are bearing a fine crop of fruit. One, a Red Crab, is loaded with splendid fruit, and another the Russian Prince apple, had a crop of about 40 good sized apples. There is no doubt that apples can be successfully grown here and we expect a lot of planting will be done next spring.
